BCA student with hands-on experience in Python-based data analysis and web development fundamentals (HTML,CSS,PHP,SQL). Built a student performance analysis tool using pandas and matplotlib to process CSV data, calculate grades, and visualize results. Strong academic record (94%PUC,96.16%SSLC). Seeking an entry-level Data Analytics or Software Development role to apply technical skills and continue growing professionally.

SKILLS

Programming: Python, SQL, C, C++, Basic PHP

Web: HTML, CSS

Data Tools: Pandas, Matplotlib, Microsoft Excel

Productivity: MS Word, MS Excel

EDUCATION

Bachelor of Computer Applications (BCA)
Dayananda Sagar Business Academy, Bengaluru
Bangalore University | 2024-2027(Expected)

Pre-University(PUC)
Rural PU College, Kanakapura | 2022-2024
Percentage:94%

SSLC
Rural Girls High School | 2022
Percentage:96.16%

PROJECTS

STUDENT EXAM PERFORMANCE ANALYSIS

- Built a Python program to read student marks from a CSV file and automatically calculate total and average marks per student.
- Implemented logic to assign grades and identify the top-performing and lowest-performing students.
- Created bar and pie chart visualizations using Matplotlib to represent performance distribution.
- Exported a processed student report(CSV) summarizing calculated results for all students.

AQUA GRAIN CHATBOT - FOOD AND WATER SECURITY

- Designed a conversational chatbot interface to provide information on food and water security topics.
- Built using HTML and CSS to deliver a simple,accessible web-based interaction flow.
- Strengthened front-end development and problem-solving skills through iterative design.

CERTIFICATIONS

- Artificial Intelligence Fundamentals - IBM
- Introduction to Python - Infosys Springboard
- Web Programming - Infosys Springboard
- Spreadsheet Modeling Online Course - Harvard University
- HTML & CSS Crash Course - Coursera
